

AOCS thanks our volunteer editors and reviewers who provide expert peer review for **JAOCS**. Their contributions make it possible for **JAOCS** to provide key research regarding the science and technology of oils, fats, proteins, surfactants and related materials to the scientific community worldwide.

Special thanks to Janitha P.D. Wanasundara and Mila P. Hojilla-Evangelista, guest editors of the August 2018 special issue, ***Satisfying Protein Demand with Plant and Alternative Proteins: Sources, Quality, Processing, Modifications and Applications***, for working with the members of the Protein and Co-Products Division to bring the issue to fruition.

We look forward to working with you again in 2019!

JAOCS Editorial Board
