

Certificate of Analysis			
AOCS 0306-I9, LLRice62 Rice leaf tissue genomic DNA			
Certified Property	Certified Presence	Measurement Uncertainty	Test Method
LLRice62	Yes Pure, Homozygous LLRice62 Rice	0	event-specific real-time PCR
<p>Description: This is the ninth batch of LLRice62 Rice CRM prepared by AOCS for Bayer CropScience. This material is for limited purposes only: see "Intended Use" and "Terms and Conditions."</p>			
<p>This certificate is valid through: March 2023</p> <p>This validity may be extended when further evidence of stability becomes available. Customers will be notified by AOCS if a stability issue arises at AOCS Headquarters.</p> <p>Introduced: 9 July 2018 Revised: 6 March 2019, 14 January 2020, 9 March 2020, 19 February 2021, 14 March 2022</p>

<p>AOCS Mission: AOCS advances the science and technology of oils, fats, surfactants and related materials, enriching the lives of people everywhere.</p>			

Characterization

Product Description AOCS 0306-19 has been prepared by AOCS from Rice genomic DNA extracted from clean leaves. AOCS 0306-19 is available in sterile, 0.5 mL skirted screw-cap self-sealing tubes containing approximately 10 µg of DNA. Each sample contains approximately 94 µL at a concentration of 107 ng/µL. Users are informed that this reference material has been produced from genomic DNA extracted from clean leaves of LLRice62 Rice delivered by Bayer CropScience. The LLRice62 rice used in the preparation of AOCS 0306-19 resulted from several cycles of self-pollination of the LLRice62 line.

Homogeneity Ten packaged samples were tested using event-specific qualitative PCR methods developed and validated by Bayer CropScience. Test results received from Eurofins-GeneScan, New Orleans, LA (an ISO 17025 accredited laboratory) for qualitative, event-specific analysis were all consistent with the reported presence of the LLRice62 trait.

Stability AOCS Certified Reference Materials are tested for stability on an annual basis and certificates may be extended based on the outcome of this testing. Customers may request extended certificates, but they are informed that results are based on samples that are obtained from AOCS' inventory. AOCS cannot guarantee the integrity of samples from batches that we no longer have inventoried.

Analytical Method Used for Certification

Eurofins-GeneScan, New Orleans, LA (an ISO 17025 accredited laboratory) performed event-specific real-time PCR for LLRice62 to validate the presence of the LLRice62 trait.

Warnings and Precautions

This product is for laboratory use only and is not for consumption. The user of this CRM should follow safety requirements and rules issued by voluntary organizations and government agencies expert in the field of laboratory safety.

Intended Use

This CRM, AOCS 0306-19, is intended for use as quality control material or calibrant in methods for the detection, identification, and/or quantification of biotechnology-derived events.

Instructions for Use

Upon receipt the product should be stored in a sealed container at +4 °C in the dark. The product may have redistributed during shipment, therefore, centrifuge the vial to aggregate the sample at the bottom of the vial before use.

If the user of this CRM intends to use it multiple times, proper protocols must be followed to ensure that the sample retains its integrity. Use a clean pipette to extract the intended sample amount. Close the lid on the vial and rewrap with new parafilm. Store the CRM +4 °C in the dark and repeat this process for all subsequent uses.

Recommended test portion: minimum of 200 ng or the test portion recommended in your validated method

Protocols have been followed to ensure that this CRM has the presence of the LLRice62 trait. Please follow all instructions on this certificate to prevent contamination of the CRM.

Note: The AOCS 0306-19 certification report is available online and a paper copy will be supplied upon request.

Terms and Conditions (i– ix)

- i. The CRM AOCS 0306-19 shall be used solely 1) in assays for (a) detecting the presence of LLRice62, or (b) quantification of LLRice62; or 2) for determining whether an assay cross-reacts with CRM AOCS 0306-19. CRM AOCS 0306-19 shall be used for no other purpose. Specifically, the CRM may not be used to develop a detection method for LLRice62 nor trait(s) present therein. No other rights are conveyed by the sale of the CRM 0306-19 to any purchaser, including any rights to any pending or granted Bayer CropScience Patents or other Bayer CropScience Intellectual Property that may protect the CRM or LLRice62 or trait(s) present therein or a detection method for LLRice62.
- ii. Neither the CRM AOCS 0306-19 nor any extract or portion thereof shall be resold or redistributed by any purchaser, unless the resale or redistribution is required by national law in force in the purchaser's country.
- iii. Neither the CRM AOCS 0306-19, nor any extract or portion thereof, shall be used for human or animal consumption or human or animal trials.
- iv. Neither the CRM AOCS 0306-19 nor LLRice62 DNA, nor any part of either of these, shall be used for transformation or breeding.
- v. No characterization or derivation of LLRice62, of the trait or traits present in CRM AOCS 0306-19 shall be performed, except as allowed for in section (i).

- vi. All assay activities undertaken using the CRM AOCS 0306-19 shall be conducted in strict compliance with all Applicable Laws governing such activities and shall comply with conditions of all permits and authorizations which may be required for such activities and such activities shall be strictly limited to assays in contained facilities, for example, laboratories.
- vii. Prior to disposal of any used or excess CRM AOCS 0306-19 or residues thereof, such material or residue must be treated in a manner that degrades LLRice62 in the CRM material, such as by autoclaving.
- viii. CRM AOCS 0306-19 shall not be exported nor re-exported in violation of any Applicable Laws or without securing any necessary export or import clearances or permits.
- ix. The CRM AOCS 0306-19 is provided for identifying, detecting and quantifying the event and for no other purpose. AOCS has tested CRM AOCS 0306-19 within the past 12 months and states that it has determined it to be of sufficient quality and fit for the purposes stated herein. No Bayer CropScience warranty is provided, whether express or implied, in relation to the CRM AOCS 0306-19 and Bayer CropScience materials. Bayer CropScience makes no representation or warranty that the use of the CRM AOCS 0306-19, whether before, or after the effective date of the applicable certificate, will not infringe any patent or other proprietary rights.
